

Conditions of reservation and use to  
**VIDEOCONFERENCING**

The markings of this service should be made with at least 48 hours in advance.

The minimum duration of each reservation is 1 hour, and the following periods taxed by every half hour.

The Globally Centers request the destination IP to perform a quality connection test, to ensure the proper functioning of the service. The average test duration is 15 minutes. If not attributable to the center grounds, it is necessary to extend the test duration, the Globally will apply the time value of the service to the total time used.

Once completed the test successfully, proceed to the booking confirmation and request pre-payment for the service with the application of the figures.

The cancellation of the service over a period of time less than 24 hours, prossupõe payment of a time reference service to the reserved time period.

The video conferencing system available on the Globally Freedom Center has no Multipoint connection or conexão ISDN.
